<i>List of modifications</i>	<i>From:</i> 01.300.01.01 / 4/24/2013
	<i>To:</i> 01.300.01.01 / 4/24/2013

Module: General**Notes:** 1

Note: ELE-89

If users were registered as "Name, Surname" (for example CN=Mario, Rossi), the LDAP wrapper could not generate the login query correctly for Active Directory.

Now the connection string is handled so that it is compatible with this type of users.

Patch Situation 01.300.01.01

Module: Setup**Notes:** 1

Note: ELE-88

When running an update, the setup had no information about the path to set in the services for the sample filesystem.

Services, therefore, referred to pathnames of configuration files with no rootpath.

A modification has been implemented: the correct path (rootpath) is now kept in memory to set the services parameters.

Patch Situation 01.300.01.01
