

# What's New?

## ELENA WEB CLIENT

<i>List of modifications</i>	<i>From:</i>	01.100.02.01 / 18/12/2013
	<i>To:</i>	01.100.02.01 / 18/12/2013

---

**Module:** Builder**Notes:** 1

---

**Note:** EWC-66

If a project is not associated with the Dimensional Catalogue plugin of ELENA but dimensional data are already gathered through csv files, the Difference panel of the Builder page is made invisible to the user. The 'difference' command, in fact, operates on data of the dimensional tables, but these tables do not exist if the DC module is missing; the command is therefore hidden to avoid errors during tables loading.

**Patch Situation**      01.100.02.01

**Module:** Catalogue**Notes:** 1

---

**Note:** EWC-59

During the download of the dimensional catalogue configuration (Catalogue page, Utility panel) the following files are downloaded:

- dimscata\_rule\_SP.xml
- dimscata\_tmpl\_SP.xml
- MainCata.db

The MainCata.db file shall not be included in this download because it is not a configuration file.

As for the Upload function, also for the Download function the MainCata.db file is made independent from the dimscata\_rule\_SP.xml and dimscata\_tmpl\_SP.xml files.

**Module:** General**Notes:** 2

---

**Note:** EWC-63

The image of the Homepage has been modified, so that ELENA features are now more detailed.

**Patch Situation**      01.100.02.01

**Note:** EWC-64

Ambiguous messages were displayed in the Builder and Catalogue pages: the same message would appear both for expired licenses and for projects engaged by the same user or by another user. Different messages are now properly displayed according to the specific cases.
