	<i>To:</i>	01.000.08.01 / 12/01/2015

Module: No subsystem

Notes: 3

Note: TMS-794

It has been solved the problem detected in Restore Project where at the end of Restore the Main Project lines appeared blank and had to redo a Sort to see the correct Main Projects.

It was also solved the problem detected with the Project Copy where at the end of the copy the cursor was positioned on the first line of the Main Projects instead of staying on the original Main Project

Patch Situation 01.000.08.01

Note: TMS-795

It was introduced a uniqueness check of the Project Code on all projects and not only on the current Main Project

Patch Situation 01.000.08.01

Note: TMS-798

In Performance & Trend Analysis Report was introduced a control in order to propose, between the various projects compatible for comparison, only those that have the same Main WS and the same Alternative WS

Patch Situation 01.000.08.01

Note: TMS-799

It has been solved the problem detected in case of import of a Main WS where, for all elements, the parameters were all manually inputted.

This caused the failure to calculate the "Proposed Weight" and then the failure to transfer as "Imposed Weights"

Patch Situation 01.000.08.01

What's New?

TMS

<i>List of modifications</i>	<i>From:</i>	01.000.08.01 / 12/01/2015
	<i>To:</i>	01.000.08.01 / 12/01/2015

Note: TMS-801

It has been solved the problem detected in the case of Import Generic File exported from P6 where in the second sheet was not recognized the cut-off date (cell A2) if the cell was not formatted as a date

Patch Situation 01.000.08.01

Note: TMS-804

It has been solved the problem detected in Progress View where the progressive numbering of the periods was not correct in the case of using a Custom Calendar

Patch Situation 01.000.08.01

Note: TMS-805

It was given the possibility to edit the check box of the Calendar CUSTOM - All Calendar Days
In this context was added two new commands: "Select All" and "Unselect All"

Patch Situation 01.000.08.01

Note: TMS-808

It has been solved the problem of the OTP Report where the Report Title 2, the Footer 1 & 2 were not properly reported in the Report and were not saved in the Report Specs

Patch Situation 01.000.08.01

Note: TMS-810

Now the Main Projects and the Projects are automatically sorted(Ascending)when the user is entering in TMS

Patch Situation 01.000.08.01

What's New?

TMS

<i>List of modifications</i>	<i>From:</i>	01.000.08.01 / 12/01/2015
	<i>To:</i>	01.000.08.01 / 12/01/2015

Note: TMS-816

It has been solved the problem of the proper allocation of the picture in the Dashboard by optimizing the space available.

Patch Situation 01.000.08.01

Note: TMS-819

In Main Weighting Structure has been inserted two new commands:

- 1) "Sort" (Ascending and Descending) to sort the brothers nodes at the same level of of the selected node
- 2) "Node Position" to manually change the position of the selected node at the same level of the brothers nodes

Patch Situation 01.000.08.01

Note: TMS-821

It has been solved the problem that cause the change of the hierarchy created in Alternative Weighting Structure and not maintained after the saving

Patch Situation 01.000.08.01

Note: TMS-825

It has been solved the problem that generates error in case of import from Excel of a Main Structure Weighting where weights not close to 100% at all levels.

The control of the closure to 100% at all level is already checked in TMS with the appropriate symbol

Patch Situation 01.000.08.01

Note: TMS-826

It has been solved the problem where being copy or backup of the project were not maintained the specifications of the Distribution Profiles

Patch Situation 01.000.08.01

What's New?

TMS

<i>List of modifications</i>	<i>From:</i>	01.000.08.01 / 12/01/2015
	<i>To:</i>	01.000.08.01 / 12/01/2015

Note: TMS-828

It has been solved the problem of missing recognition of C3 Items added during Update Work Class by inserting the automatic changing in capital letters of the C3 Item Tag ID

Patch Situation 01.000.08.01

Note: TMS-829

It has been solved the problem that generates an error when is activated the Copy command of an entire row (C3 Item row) in the mask of the Project Work Class Structure

Patch Situation 01.000.08.01

Note: TMS-831

It has been fixed the problem that caused error in the manual creation of the first node of the Main WS. The same problem was also present in the creation of a node after activating the command "Clear All"

Patch Situation 01.000.08.01

Note: TMS-832

It has been solved the problem of printing in PDF of the "Global Layout" where it was printed only the first line of the report.

Patch Situation 01.000.08.01

Note: TMS-837

It has been solved the problem detected in some reports where, in case of selection of elements of the Main WS with 2 levels, the combination of the colors of the structure did not allow readability

Patch Situation 01.000.08.01

What's New?

TMS

<i>List of modifications</i>	<i>From:</i>	01.000.08.01 / 12/01/2015
	<i>To:</i>	01.000.08.01 / 12/01/2015

Note: TMS-838

It has been solved the problem that caused an error after the import of a "Distribution profile" that was referring to a Main WS node not existing

Patch Situation 01.000.08.01

Note: TMS-840

It has been solved the problem detected during Import Quantities in Exchange Area where, if the first two columns (hidden in the Import file) were blank, the Import was blocked

Patch Situation 01.000.08.01

Note: TMS-841

It has been solved the problem detected in the chart of "Multiple Curves" where the Forecast curves were not properly represented

Patch Situation 01.000.08.01

Note: TMS-842

It has been solved the problem detected in the "Quantity Production Chart" where the Forecast Curve was not properly represented

Patch Situation 01.000.08.01

Note: TMS-843

It has been given the possibility to clean up the progress for the past periods of C3 Cut off prior to Current Cut off.

For each past Cut off that is selected from pull down are cleaned:

- Progress for C3 Item and Step
- Progress for C3 Activity
- Progress for C3 Work Class
- Actual Start and/or Actual Finish for each C3 Item

Patch Situation 01.000.08.01

What's New?

TMS

<i>List of modifications</i>	<i>From:</i>	01.000.08.01 / 12/01/2015
	<i>To:</i>	01.000.08.01 / 12/01/2015

Note: TMS-844

It has been inserted "Progress Bars" in the following contexts:

- Backup Project
- Delete Project
- Restore Project
- Copy Project
- Loading of Progress Work Class Structure
- Loading of C3 Item in Progress Work Class Structure
- Selection of the Sub Contractor
- Import C3 Item Quantities
- Update Work Class

Patch Situation 01.000.08.01

Note: TMS-845

It has been solved the problem of the saving of the defined folder in "Exchange Folder" in case of program crash

Patch Situation 01.000.08.01

Note: TMS-849

It was inserted the correct validation on duplication of the serial numbers on the form of Activity Codes, C3 Item Codes and UDP

Patch Situation 01.000.08.01

Note: TMS-850

In order to avoid confusion with the program files, the files for saving of the Report Specs were moved to a specific folder named "Rep-Specs"

Patch Situation 01.000.08.01

What's New?

TMS

<i>List of modifications</i>	<i>From:</i>	01.000.08.01 / 12/01/2015
	<i>To:</i>	01.000.08.01 / 12/01/2015

Note: TMS-853

In order to manage in the list of rights in dbman also the commands Project Insert, Delete Project and modify Project it has been inserted a logic control that enable the user's right in dbman

Patch Situation 01.000.08.01

Note: TMS-856

It has been solved the problem in DBman that showed as "Active" some commands that in "Permissions" were set as "Denied"

Patch Situation 01.000.08.01

Note: TMS-857

In DB as was added in the Commands list the missing Command "Get from Work Class"

Patch Situation 01.000.08.01

Note: TMS-859

In DBman has been reorganized the list of permits of TMS in order to make them understandable and consistent with the current menu.

Were also added new commands that were missing in particular:

Insert Project
Delete Project
Modify Project

Patch Situation 01.000.08.01

Note: TMS-860

It has been guaranteed exclusive access to a specific project in the context of potential danger due to simultaneous access in the same context.

It is produced a warning message that advise the user about the blocking and identifies the user who has already entered in that context

Patch Situation 01.000.08.01

What's New?

TMS

<i>List of modifications</i>	<i>From:</i>	01.000.08.01 / 12/01/2015
	<i>To:</i>	01.000.08.01 / 12/01/2015

Note: TMS-862

It has been solved the problem detected in Tab UDP of the Project Work Class Structure where after an input of a Date in a given UDP of one C3 Item (date format) it was impossible to clear the Date itself

Patch Situation 01.000.08.01

Note: TMS-865

It has been solved the problem in situation of simultaneous access in the same project and in the same context in "read only" where he was erroneously permit the editing and finally it was not possible to get out of the context itself.

Patch Situation 01.000.08.01

Note: TMS-866

Were made cosmetic changes to the user interface of the Progress View and Reports

Patch Situation 01.000.08.01

Note: TMS-867

It has been inserted a specific command "Project Delete" for the cancellation of one or more projects

Patch Situation 01.000.08.01

Note: TMS-870

It has been inserted a freeze title on the template Progress Work Class Structure to facilitate the reading in case of several C3 Items

Patch Situation 01.000.08.01

What's New?

TMS

<i>List of modifications</i>	<i>From:</i>	01.000.08.01 / 12/01/2015
	<i>To:</i>	01.000.08.01 / 12/01/2015

Note: TMS-888

It has been solved the problem with PosgreSQL where in the presence of long transactions occurred timeout

Patch Situation 01.000.08.01
