<i>List of modifications</i>	<i>From:</i>	01.001.02.10 / 24/05/2016
	<i>To:</i>	01.001.02.11 / 06/06/2016

Module: No subsystem

Notes: 4

Note: TMS-1203

It has been greatly improved (in Project Work Class Progress) the export/import of workbooks for external data entry of Sub Contractors and in particular:

1) Contractor selection

TMS is now being shown only the part of the Work Class Structure of the selected Contractor. The weights, the progress and the Weighting Factors are automatically recalculated based on the 100% of the selected Contractor Scope

2) Export to a Single Workbook of selected Contractor

TMS creates a Workbook that shows exactly the selected data
The Contractor will then immediately know the total of its progress to date

3) Import the Workbook with progress inputted by the Contractor

TMS can import a Workbook of a single contractor, or more Workbook of more Contractors in one run

Patch Situation 01.001.02.10

Note: TMS-1240

Now you can use the same C3 Item Tag ID in more Work Classes in the following contexts:

- 1) Manual Input (within TMS Project Work Class Structure) of the same C3 Item Tag ID in more Work Classes
- 2) Import from Excel of C3 Item (in Exchange Area) with the same Tag ID in more Work Classes
- 3) Export to Excel of C3 Item (from Exchange Area) with the same Tag ID associated with different Work Classes

Patch Situation 01.001.02.10

What's New?

TMS

<i>List of modifications</i>	<i>From:</i>	01.001.02.10 / 24/05/2016
	<i>To:</i>	01.001.02.11 / 06/06/2016

Note: TMS-1241

The Export of Single Work Class has now the following options:

- 1) Export of a Single Work Class in one Excel File with the full content of the Work Class itself
- 2) Export of a Single Work Class in multiple Excel Files (one file for each Activity associated to the Work Class itself)

The Import of Single Work Class has now the following options:

- 1) Import of a Single Work Class Excel File with the full content
- 2) Import of multiple Activity Excel Files in one run

Patch Situation 01.001.02.10

Note: TMS-1246

It has been implemented a new Feature to select and export (in Excel Workbook) only the deliverables of a single activity associated with a specific Single Work Class.

The above Export is performed with the active flag on "By Activity"

Patch Situation 01.001.02.11
